ABOUT VELOS SOFTWARE PLATFORM

The Velos Software Platform is a dynamic and comprehensive Solution that addresses the needs of Fiduciary, Accounting/Audit and Legal Professionals such as those involved in Corporate Management, Time Management, Billing, and Accounting.

Velos Software Platform Modules are offered as stand-alone software tools and, when integrated, deliver greater visibility and functionality.

State-Of-The-Art Solution for Streamlining Your Organisation's Tasks
VELOS KYC/AML – OVERVIEW

Velos KYC/AML is a Comprehensive Software Solution that allows your organisation to stay ahead of compliance concerns. A valuable tool for compliance officers, Velos KYC/AML delivers valuable insights in terms of Knowing Your Customers while acting as a constant monitoring Solution.

The Solution automatically assigns a risk rating to clients based on more than 40 parameters as defined by CySEC, SELK, CYBAR, thus saving time and money and allowing your organisation to function effortlessly.

iKYC SCREENING – OVERVIEW

PEP lists, Sanction lists, Adverse Media
Simple, Flexible Pricing Plans for PEPs, Sanctions, and Adverse Media Screening

A Solution that aggregates thousands of government regulatory and law enforcement watchlists, sanction lists and PEP profiles checked daily using global insights. The software offers reduced false-positive alerts and seamless single API integration.

Our robust solution is enhanced with two different global source providers, Acuris and Bureau Van Dijk, that enables access to high-value content for financial professionals and insights that are not available anywhere else.
KEY FEATURES OF VELOS KYC/AML

Velos KYC/AML Platform comes with a plethora of outstanding features.

- **Set up of Profiles for Individuals, Legal Entities, Funds and Trusts**
  Create Client Profiles while maintaining important data related to KYC/AML compliance.

- **Set up Risk Evaluation Criteria Values (Low, Medium, High, Ineligible)**
  Define and allocate evaluation criteria that affect risk scoring.

- **Client ‘Risk Scoring’ and ‘Highest Grade’ Evaluation**
  Provides the actual Risk Scoring together with the Highest Grade Assigned to the Client.

- **Ongoing Monitoring**
  Enables Real-Time Monitoring of Clients by integrating with third-party providers.

- **Client Structure in Tree Mode**
  Provide your Clients’ Structure in a diagram mode.

- **Automatic Re-evaluation of Entities**
  Constant evaluations based on a Client’s Risk Score.

- **Reporting**
  A wide range of reports which can be given to Audit Authorities e.g. Risk Profile, etc.

- **Alerts & Expiration Notifications**
  Get notified automatically via email or sms for unique-to-your-operations alerts and for documents expiring soon.

- **Cybar and ICPAC Reports**
  Generation of reports needed by regulators.

- **Generation of Dashboards**
  Provides a wide range of dashboards that can assist users in their day-to-day operations.

- **Roles/Permissions**
  Provide access to users based on the relevant information they need to manage/view.
iKYC PLATFORM

iSPIRAL has launched the most holistic KYC & AML solution to date, the iKYC.eu platform. The solution is offered as SaaS (Software as a Service) and it aggregates thousands of government regulatory and law enforcement watchlists, sanction lists and PEP profiles checked on a daily basis using global insights!

iKYC.eu consists of:

- **PEP**
  - Any individual, from Head of State to Members of Parliament, Members of the Board of State Owned Enterprises or Ambassador, etc.

- **Sanction**
  - Any individual or entity that is or was subject to sanctions by either the EU, UN, US Office of Foreign Assets Control, UK Treasury, etc.

- **Law Enforcement**
  - Any individual or entity named in official documentation from Law Enforcement bodies e.g. Police or any other agency e.g Interpol or the FBI. Also ones cited in Court and legal documents of that nature.

- **Adverse Media (Negative)**
  - Any individual or entity that has been reported in global newspapers, news sites or other media as being involved in financial crime.

- **Global Database Integration**
  - Integrated with Acuris and Bureau Van Dijk (BVD and RDC), 2 of the world’s largest databases

- **Ongoing Monitoring for automatic screening**
  - Screen clients against AML Sanctions, PEP, and adverse media lists on a daily basis using our integrated API Endpoint.

- **240 countries coverage**

- **Multilingual Screening**

- **Eliminates false positive**

- **Access via API integration or via the www.ikyc.eu web portal**

ELECTRONIC IDENTITY VERIFICATION

To request a verification, you can send data such as Name, Address, Date of Birth, and National ID number, and we’ll instantly return the match results. Validate against hundreds of quality data sources – including sources from Telco networks, Banks, Consumer lists, Governments, Business Registrars and Utility lists – in 47+ countries.

- Verify Person from 2 different positive sources e.g. Governmental National ID database (2+2 Match)
- Verify Person from 1 positive source e.g. Governmental National ID database (1+1 Match)
- Confirms the validity of person (full name, address, date of birth)
- Applies custom verification rules based on different countries
- Use of public data, utility charges, postal address, telephone details etc.

ELECTRONIC DOCUMENT VERIFICATION

Frictionless ID document verification technology ensures you, onboard legitimate customers, quickly and securely. Customers can capture images of ID documents (Passports, Identity cards, Driver licences) using a mobile device or webcam, and these documents are then fully authenticated using Artificial intelligence and Machine Learning.

- Verifies authenticity of documents
- Check for Authenticity of MRZ Code
- Check for Tampered Information and Accuracy of Format
- Compare ID document template with actual uploaded document
- Check additional security elements such as holograms
- Check Crumpled/folded Edges and for Photoshopped Elements altered
