CONFERENCE PROGRAMME

The main characteristics of the world that we live in are volatility, uncertainty, complexity and ambiguity.

In this environment, the private client faces concerns and challenges about family governance, succession, estate planning, mobility and taxation, especially in Europe where populism is rising and the private client industry is under the microscope.

The fourth STEP Europe Conference will take place in Cyprus, one of the most attractive financial centres in Europe. An international panel of speakers, including

academics, politicians, private practitioners and people from the business community, will share their views on hot and cross border topics such as: family governance and succession; family mobility; beneficial ownership registers; and taxation of executives, employees, shareholders and private equity managers in relation to remuneration schemes.

Please join us in Limassol on 27 – 28 June 2019 and be part of this popular annual event!
