Company Profile

About

eBOS Technologies is an innovative and client-focused Information Technology company providing technologically-advanced e-business software solutions to enterprise customers on a worldwide basis.

Our product portfolio includes a wide range of Windows® and web-based customizable business solutions targeted for the enterprise market. Our core offering, WiseBOS Enterprise Resource Planning (ERP), is a state-of-the-art comprehensive software suite specifically designed to effectively adapt to the ever-changing business needs of companies, unleashing the real potential of fully integrated and business-aligned solutions.

Why choose

The **long-lasting trust** that major reputable companies worldwide are showing in our products and services is a testimony of our excellence in IT. Our **WiseBOS ERP Suite** includes an extensive range of top-quality solutions at competitive price schemes, and we are proud they were adopted by top-ranking firms in competitive and fast-evolving sectors such as Legal, Fiduciary, Accounting and audit, as well as Business consulting.

At European level, eBOS is consistently **recognized as a leading research and development institution**. Based on data published by the European Commission, ResearchRanking.org provides innovative estimates on the funding and networking performance of European research institutions. eBOS regularly makes it to the top 10 of the local market ranking.

Our **strong dedication to our clients and our passion for research** is what makes us uniquely able to deliver best-of-breed innovation that delivers real business value in the most challenging corporate environments. Our efficient company structure and processes, our team's high-expertise and rich academic qualifications make us Your IT Business partner of choice.

Some of Our Trusted Clients:

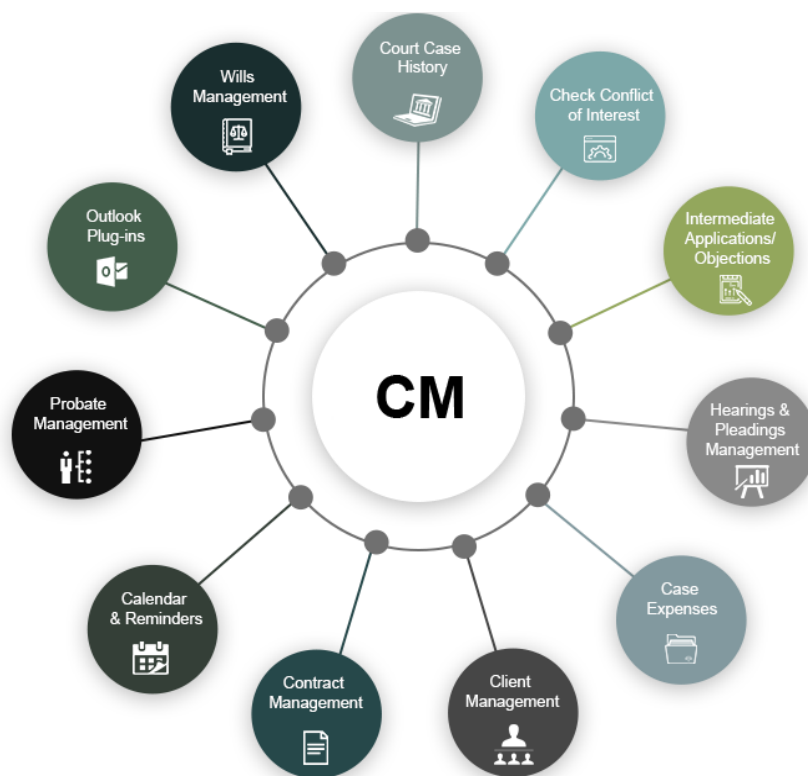

CM **WiseBOS** Case Management

"Managing what matters more for you..."

[WiseBOS Case Management](#) is one of the most sophisticated legal software solutions in the market, designed to effectively manage, simplify, streamline and coordinate the work of lawyers, legal assistants and associated staff in legal firms.

WiseBOS CM is simple and easy-to-use, allowing you to keep detailed information, procedural actions and expenses incurred for litigation cases, legal contracts, consulting services, wills and probate. It manages appointments for court appearances and hearings as it can be synchronized with Microsoft Outlook Calendar with automatic scheduling and custom reminders.

RiSC **WiseBOS** Risk intelligence, Scoring & Compliance
"RiSK-Based Compliance Made Easy"

WiseBOS RiSC - Risk intelligence, Scoring & Compliance is an advanced comprehensive next-generation solution that provides more efficient and more effective risk-based compliance capability to financial and non-financial institutions, such as audit, fiduciary, legal, investment and insurance firms, assisting them to minimize exposure to financial fraud and terrorism financial activities, maintain and fulfill regulatory compliance, especially for Anti-money Laundering purposes, determining the risk level and mitigating the risks associated with the onboarding and monitoring of their customers. It provides a wide view of customers' relationships, rates their risks based on a dynamic rules-based engine, monitors activities, detects, investigates and documents suspicious cases through a comprehensive friendly user interface and produces meaningful regulatory reports.

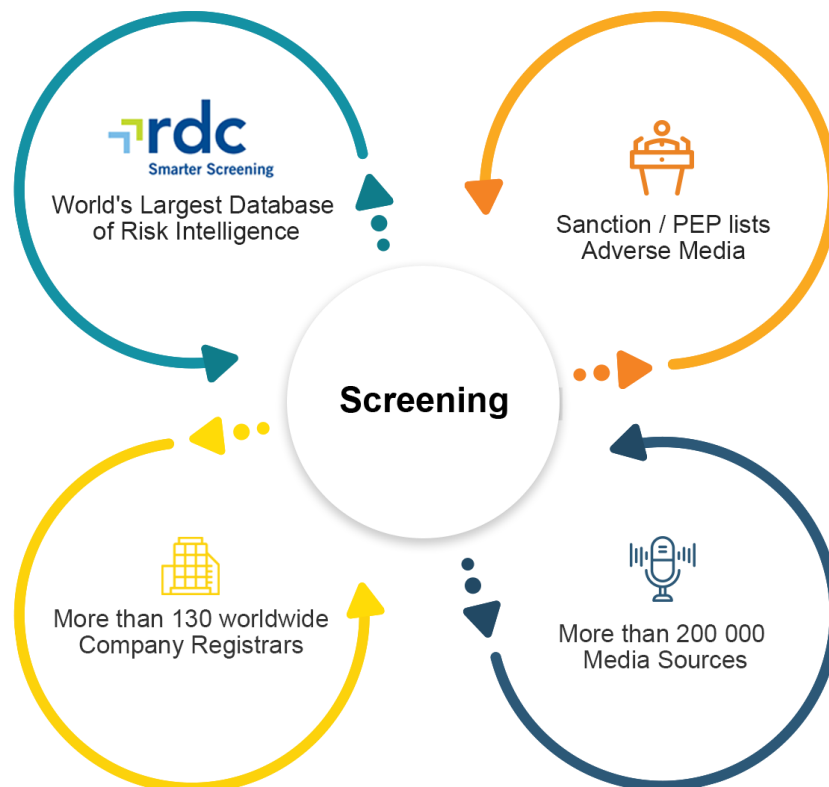

Scr **WiseBOS** Screening

"Screen customers against the world's largest risk-relevant database"

[WiseBOS Screening](#) is one of the most comprehensive customer screening solutions in the market. It is integrated with the world's largest risk-relevant database, provided by our partner, [RDC](#). Its database is equivalent to database of Lexis Nexis (World Compliance) or Thomson Reuters (World Check). The Module delivers a sophisticated screening solution capable of screening customers against Politically Exposed People (PEP) lists, Sanctions lists, Adverse / Negative Media reports, etc. It dramatically improves productivity and nearly eliminates false positives. The Module also provides coverage for 240 countries and processes data from more than 200 000 sources in several languages.

Enhanced with Machine Learning, it delivers utmost compliance, accuracy and performance. Additional features include direct links to more than 130 worldwide company registrars as well as Passport check for ultimate assurance.

WiseBOS Screening is the latest addition to the [WiseBOS ERP Suite](#) and is the ultimate compliance tool for your needs.
